Summary

Full-stack developer with 2+ years across internships and industry roles, building production applications with Laravel, Next.js, and TypeScript. Experience spans REST API design, payment integrations, and role-based systems, with a strong focus on writing clean, maintainable code and collaborating across teams.

Experience

Junior Software Engineer, NidusLab. (January 2026 - August 2026).

- Develop and maintain Laravel backend applications, build modern Next.js + TypeScript frontends, create RESTful APIs for web apps, and integrate third-party services including payment gateways, SMS, and email.

Junior Software Developer, Alor Feri Limited (July 2025 - December 2025).

- System analysis & architecture planning, full-stack feature development, API integration & optimization, bug fixing & performance improvements and team collaboration & documentation.

Backend Development Intern, Pressply LLC (Jan 2024- May 2024).

- REST API development with Express, PostgreSQL & Prisma ORM, Stripe payment integration, and scalable e-commerce backend development.

Skills

- Development: React.js, Next.js, Express.js, Laravel, JavaScript, TypeScript.
- State & UI: Redis, TanStackQuery, Tailwind CSS, shadcn/ui, responsive and dynamic solutions.
- Backend & APIs: REST API design, Sanctum authentication, Spatie role permissions, Queue jobs, Scheduler.
- Databases & ORM: MySQL, PostgreSQL, MongoDB, FireBase.
- Tools & Platforms: VS Code, Git Bash, Laragon, Postman, Figma, XAMPP.
- System architecture, SRS, User Stories, Timeline, SEO, Web performance.
- Soft Skills & Extras: Teamwork, Communication, Adaptability, Problem Solving, Attention to details.

Projects

SN Foundation (SNF)

- Solo-built **full-stack Laravel and Next.js**. features real-time Reverb notifications and messaging, report management, concern reporting, **Stripe & bKash** payment gateway, and Zakat calculation.
- Includes 4 role-based dashboards (Sponsor, Organization, Admin, User) secured with Sanctum RBAC, Spatie Role Permission, Redis, Tanstack Query, Scheduler and Queue Jobs

Live here: <https://snfoundations.org>

Expro Welfare Foundation (EWF)

- Built a full-stack welfare and pension platform supporting installment-based monthly savings and multi-year pension packages, designing the **SRS**, ER diagrams, database migrations, and versioned, rate-limited REST APIs.
- Developed a role-based dashboard with Next.js, **TanStack Query**, and Tailwind CSS, along with a dynamic CMS for blogs, notices, and documents.

Live here: <https://ewfbd.org/>

KIKQRcard

- A smart digital card platform that allows users to create and share personalized QR-based cards.
- It offers live previews, customization options and public profiles for seamless sharing.
- Tech Stack: Next.js, MongoDB, Tailwind CSS.
