Summary

Backend-focused Full-Stack Engineer with nearly 2 years of experience building Laravel applications and REST APIs with Next.js frontends. Delivered 09+ live projects across e-commerce, SaaS, donation and pension platforms and third-party API integrations (bKash, Stripe, Pathao). Experienced in managing production environments through hosting control panels.

Experience

Software Engineer, Softtech Solution LTD. (September 2026 – present).

- Build and maintain e-commerce platforms with Laravel and Next.js. Delivering new features and modules & updating server with hosting control panels.

Junior Software Engineer, NidusLab. (January 2026 – August 2026).

- Developed full-stack web applications using Laravel, Next.js and TypeScript, building RESTful APIs & translating designs into responsive, production ready interfaces.

Junior Software Developer, Alor Feri Limited (August 2025 - December 2025).

- System analysis, full-stack feature development, API integration & optimization, bug fixing & performance improvements and team collaboration & documentation.

Backend Development Intern, Pressply LLC (January 2024 - May 2024).

- REST API development with Next.js, Express.js, PostgreSQL & Prisma ORM, Stripe payment integration, and scalable e-commerce backend development.

Technical Skills

- **Programming Languages:** C++,JavaScript, PHP, Python, SQL
- **Backend Development:** Laravel, Django, REST API design, Authentication, Queue Jobs, Role Based Access Control (RBAC), Task Scheduling.
- **Frontend Development:** React, Next.js, TanStack Query, Tailwind CSS, shadcn/ui
- **Database & ORM:** MySQL, PostgreSQL, MongoDB, Redis, Firebase, Prisma ORM
- **Payment & Integrations:** bKash, Stripe, Pathao, Steadfast, Third-Party API Integration
- **Architecture & Planning**: System Design, CI/CD, SRS, User Stories, ER modeling, SEO, Web Performance
- **Tools & Deployment:** GitHub, Claude Code, Laragon, Postman, Figma, Vercel, cPanel, CyberPanel

Projects

SN Foundation (SNF)

- Solo-built **a full-stack platform (Laravel and Next.js**) featuring monthly child sponsorship with flexible management options to pause, extend or cancel anytime including installments..
- Added 10+ modules with many features including real time messaging, report/concern report management, **Stripe** & **bKash** payment gateway, recurring & project based donation with Zakat calculation.
- Includes 4 role-based dashboards (Sponsor, Organization, Admin, User) secured with Sanctum authentication, Spatie Role Permission, Redis, Tanstack Query, Scheduler and Queue Jobs

Live: https://snfoundations.org

Expro Welfare Foundation (EWF)

- Built a full-stack welfare and pension platform supporting installment-based monthly savings and multi-year pension packages, designed the **SRS**, ER diagrams, database migrations, and versioned, rate-limited REST APIs.
- Implemented with 370+ endpoints with 10+ modules including dynamic CMS.
- Developed a role-based dashboard with Next.js, **TanStack Query**, and Tailwind CSS, along with a dynamic CMS for blogs, notices, and documents.

Live : https://ewfbd.org

KIKQRcard

- A smart digital card platform that allows users to create and share personalized QR-based cards.
- It offers live previews, customization design options, payment method with Bkash.
- Tech Stack: Next.js, MongoDB, Tailwind CSS.
